The baths at the Sanitarium have a peculiar effect on some people. It is said that the sulphur enters the pores of the body in places taken in the heart, and from there by arteries and capillaries to the minute tissues of the brain, there being a circulation through every hole and corner, causing acute legittis.

The chairman was the renowned Superintendent, W. P. Williams. Mr. F. Wright acted in the capacity of Santa Claus in a splendid manner. The rendering of the program by the young people speaks well for the high training of Miss Norton. Several items were also rendered by residents of the camp. Cowley, Friday, December 31, 1909.

NEW COWLEY CLUB

Several weeks ago we noted the intention of our leading townsmen of establishing a reading and amusement room in Cowley. We are glad, today to announce that a meeting of all those interested in the scheme will be held next week to consider the proposal and take action. As we stated before, the parish room of the new Anglican church is available for the purpose, and as the club will be strictly non-sectarian and non-political, there is no question as to the good effect such an institution will have upon this section of the district.

For many years this town has been sadly in need of some place where our young people might assemble and find good literature and enjoy social intercourse and athletics, which would mean much to their intellectual and physical development.

It is gratifying to know that our people are aware of the great necessity of such an institution, and without a doubt it will receive the unanimous support of every high-minded citizen. A meeting will be held in the parish room on Tuesday evening next, January 11th, at 8 p.m., when the matter of forming a club will be discussed and any new proposals or suggestions brought forward will be considered. We hope every citizen will make an effort to attend.

### ROME RULE

When Premier Asquith announced that home rule was one of the planks in his platform he swung into line the solid Irish vote. No true follower of the late Gladstone or statesman of the Liberal school can conscientiously withhold from supporting a policy of true democratic principles. On these democratic principles liberal democracy is founded. To withhold from a nation the right to govern itself is a policy and relief of the middle ages. Every state should govern and manage its own internal affairs.

In making the home rule prominent in this campaign, the liberals if returned will be justified in bringing in a measure similar to the British North America Act which granted provincial-hood, Irish affairs will then be discussed by Irish representatives in an Irish assembly. Scottish affairs could be managed by a Scottish assembly. Matters pertaining to the British Isles would, as they are now, left to the hands of imperial representatives.

A home rule bill besides, assisting in the better government of Ireland, would remove much clamor and throw some legislation from the hands of the British House of Commons. It is ridiculous to think that the states in South Africa were granted autonomy with a federal parliament as well, and Ireland which gave so much proof of its loyalty in that war, is denied what she is entitled to give to others of another nationality.

### KOREA AGAIN

For the amount of blood that has already been shed over Korea, it must be a land as rich in gold as it is in flowers. China for a long time coveted the Koreans but Japan was too strong a rival to permit the country becoming definite at all. Russia took a hand and its darkened brow on the country and now Japan, herself, is with much eastern diplomacy seeking to found a Japanese colony there.

The truth of the matter is Korea is worth fighting for. It has undeveloped coal fields, rich deposits of iron and a climate and a soil that can produce grain and fruits more abundantly than either of her neighbors as far as her acreage is concerned.

Korea's people are sadly lacking in political stamina, otherwise she would have asserted herself before or at least kept back in a measure the thirty hordes of covetous neighbors. Russia, it is now feared, is again moving troops in northern Manchuria, presumably to check Japan's encroachment in Manchuria, but in reality to draw Japan off from Korea. The possibility of another eastern war is again extremely imminent. The question which many Britishers are now asking themselves is, what attitude must Britain adopt if the war is resumed?

## EDITORIAL NOTES

The one important point about turning a new leaf is keeping it turned.

The C. P. R.'s heaven has no benches for newspaper men, consequently no journalists will be there as the C. P. R. has the right of way.

The poor newspaper man is worse off than even a doctor. The doctor has to listen to at least twenty complaints and aches a day but the paper man is aching for a complaint, of the other fellow.

With a war imminent in the Orient, a family quarrel in South America and a street railway line in contemplation in the Pass, a lot of people will be in the mood to feel that their neighbors until everything is settled satisfactory.

### MANY LIVES LOST IN NEWFOUNDLAND

St. John's, N.F., Dec. 29.—Seven Newfoundland fishermen and their crews of sixty men are believed to have been lost in the Christmas blizzard, while great destruction to property throughout the island colony had resulted. The storm, which reached its height on Sunday, raged for six days, but to-day had abated considerably. All telegraph lines in the interior of the colony are down and reports from inland points are slow in reaching here. The town of Placentia was flooded for three days and the principal business streets of that place resembled an ocean beach being piled high with floats, all that was cast up by the unusually high tides. The village of Black Head, three miles from this city, was almost swept away. The December has been the stormiest month the Newfoundland coast has experienced in half a century, and it is estimated that its cost to the fisheries in general is more than three-quarters of a million dollars.

### EXPERIMENTAL FARM

I have received instructions to make a distribution among the farmers of Southern Alberta of a few of the very best and most productive sorts of grain for the improvement of seed through out this part of the province. The sample bags of wheat and barley distributed will contain five pounds each, those of oats four pounds, enough in each case for at least one-twentieth of an acre. The sample of potatoes will contain three pounds.

The following material is available: Winter Wheat—Khirkov, (an improved strain of the Turkey red type). Spring wheat—Red Fife.

Oats—Banner.

Barley—Messary.

Potatoes—Country Gentleman, Rochester Rose, American Wonder, Reeve's Rose, Holborn's Abundance, Captain No. 1, Early Mainstay and Vermont Gold Coin.

Each household is entitled to one sample only of the above. If wheat is applied for oats cannot be obtained, etc. In addition to a sample of grain or potatoes, a packet of seedling roots will be sent to each household. This will contain from fifty to one hundred and we expect to include in the assortment Manitoba maple, cottonwood, ash and caragana (the last is a hedge plant). Applications should be addressed to the Superintendent, Experimental Farm, Lethbridge. These will be filled in the order they are received, so it is important that applications be made early before the material is exhausted.

(This distribution applies to all parts of the province from Calgary south. From parts farther north address correspondence to the Lacombe Experimental Farm.)

W. H. FAIRFIELD, Superintendent. Lethbridge, Dec. 15, 1909.

### INTERNATIONAL CON- TINUES TO DEVELOP

All doubts now as to the International ever ceasing work have been rapidly dispelled this week by the statement which is given below.

"The International Coal & Coke company of Coleman is preparing to sink a slope in the main mine. During the year the work of driving crosscuts between Nos. 2 and 4 seams will afford station men for the storage of cars from the slope and pass-ways has been in progress. This is now completed and the sinking of slope No. 6 will begin about the first of the year. The slope will be sunk about 500 feet in from the portal of the main entry and will enable the company to work the coal below the level of the present working tunnels of both seams. It will be the means of vastly increasing the company's already big output."

This statement ought to set aside at once any further false reports that have been scattered throughout the towns of the Pass.

### ELECTRIC LINE MAY BE CONSTRUCTED

For some time the business men of the Pass towns have been seriously considering the advisability of forming a local company and opening a street railway themselves. But as a result of negotiations last week of outside promoters it may in all probability be backed by either the C. P. R. or Mackenzie and Mann. In any case A. Cameron and D. J. McIntyre hold the charter and if a local company could finance the proposition it would be far more remunerative to the people of the Pass, as the net profits would, no doubt, be spent in the Pass.

The present intention of the promoters is to build a line north of the C. P. R. track from Bellevue to Coleman. Extensions east and west will be made as the business warrants. There is, no doubt, but that Ferrie and Lethbridge will be connected by a trolley line within five years. The building of this road cannot but be of great importance to Coleman.

### COLONIAL PLAYERS POOR COLONIALS

The Colonial players who played or misplayed the "Rajah" in the Opera House on Wednesday left town with less money than they brought. The "Rajah" must be a peculiar being, for the comic actors and actresses failed to bring out his good smoking points. Altogether the play was a wild ride, coupled with a few outbursts of raw enthusiasm on the part of the local audience. W. J. Bartlett, editor of the Cowley Chronicle, was accused by their Hindustani language.
